

SEPA Instruction: Add or Delete Creditors to Black or White List

Please Note: You may only instruct the bank to create a Black List or a White List. You cannot request both types to be maintained at the same time.

Please be aware that by setting up a Creditor White List means that you want to specify all the Creditors from whom you will accept direct debits. If you set up a White List it also means that direct debits from all Creditors not on the list are automatically rejected. If you had previously set up the Creditor Black List Debtor Service, the Black List will now be removed and replaced with the Creditor White List.

Please be aware that by setting up a Creditor Black List means that you want to specify all the Creditors from whom you will reject direct debits. If you set up a Black List it also means that direct debits from all Creditors not on the list are automatically accepted. If you had previously set up the Creditor White List Debtor Service, the White List will now be removed and replaced with the Creditor Black List.
